**Subject:** Microsoft Settlement

I'd just like to voice my opinion that there are serious problems with the proposed settlement in the Microsoft case. It is my belief that this judgment would not do anything to significantly curb Microsoft's power. They have already shown on many occasions to be willing to use their monopoly power to hurt competitors & consumers, and need to be stopped.

For a comprehensive list of reasons of why this proposed settlement falls short, see Dan Kegel's open letter to the DOJ here:
